

Connect to MySL for Automatic Updates

You can add scripts to Scripty as you receive them, but for an even easier experience, connect to My Script List (MySL) for automatic updates.

MySL keeps track of your active scripts. Any new scripts or repeats are auto-added to Scripty – no more eScript SMS hassles.

- 1 Ask your pharmacy for a **MySL code**
- 2 Enter the MySL code in Scripty
- 3 Relax as Scripty keeps your scripts up-to-date!

Ask your Pharmacy about MySL

With MySL and Scripty, all my scripts are in one place. No more worries about repeats. It's easy to track and order meds.

All Your Scripts in One Place

View script details and repeats remaining at a glance

Automatically updates with My Script List (MySL)

Keep track of your family's medications

Order scripts directly from your pharmacy
